

PROUDLY SUPPORTING PEOPLE WITH
ALL NEUROLOGICAL CONDITIONS

Stuart Helps Others to Find Their Courage

Ten years is a long time to commit to a fundraising event, but not for Stuart Wegner who is MSWA's longest standing participant. He doesn't have a direct connection to the organisation, however after registering for Step Up for MSWA in 2008, he has since come to know a few people living with multiple sclerosis (MS).

"My best mate actually told me about Step Up For MSWA, and we decided to start a friendly competition. I registered on the day, and ten years later I'm still waiting for my friend to turn up," said Stuart.

"I come back every year because it's a worthwhile cause to support. Before I joined Step Up for MSWA I knew little about MS and other neurological conditions, but every year I see how my support on the day, can make a difference to their lives through fundraising," Stuart added.

Stuart and his team would like to raise as much as they can, and this year they have secured a few extra fundraising opportunities. They have enjoyed seeing the event change over the years and have a lot of great memories. It's become an annual event in their calendar and the team will continue to step up, for as long as they can.

"I take on this role as supporter, in the hope of raising awareness and helping others who are living with a neurological condition," said Stuart. Step Up for MSWA has something for everyone including the mini climb for children and the Double Up Challenge, and in 2017 raised over \$248,000, all thanks to those who participated and their sponsors.

This year MSWA are hoping to exceed this amount but need your help by enlisting as many of your friends and family to join, or to sponsor your climb.

Stuart said "most of the support I've gained is from the Keep Stairing team and family and friends. All it takes is a conversation which can turn into enlisting another potential team mate. Being in business has helped with fundraising and some of my clients have been very supportive. I really hope we can make this year our biggest year yet."
